

PROTECTIVE GEAR SIZING CHART

SHOULDER PADS

The chest measurement should be taken from just below the armpits.

Match the player's chest size to the shoulder pad that corresponds.

Shoulder pad should fit snugly with the tips of the shoulders properly positioned under the shoulder caps.

ELBOW PADS

When fastened securely, there should not be a gap between the elbow pad and either the bicep extension of the shoulder pad or the cuff of the glove.

Ideally the bicep extension of the shoulder should overlap the elbow pad.

SHIN GUARDS

Measure from the centre of the kneecap to the top of the skate boot.

Match the player's shin measurement to the size of the shin guard.

Hockey pant should overlap the top portion of the kneecap.
